Enhance your home

The new and improved Dales Collection of composite doors brings individual style and innovative materials direct to your doorstep.

Behind that classic appearance, you'll find the most advanced engineering, design and technology coming together to bring exceptional beauty and performance to your home. Combining the highest levels of security and thermal efficiency with low maintenance, our composite door range offers outstanding flexibility too.

With even more door styles and colours and a wider range of glazing options to choose from, you can create a look that is perfect for your home. From the contemporary chic of the Wirksworth to the Chatsworth with its traditional Edwardian look or the quaint cottage style of the Middleton, there's sure to be a style to suit you and your home.

The sustainable choice

Made & Recycled in the UK

For many years, PVC-U windows and doors have been recognised as the durable, low maintenance and energy efficient option. Now, thanks to recent advances in recycling, PVC-U windows and doors are the first choice material for sustainability too. It means that choosing to buy your PVC-U windows and doors from us is good for your home, your pocket and the environment.

Eurocell, which manufactures all of the PVC-U components used in our doors, is at the forefront of sustainable developments in the PVC-U industry. The company recycles more than 2.4 million waste window frames per year which would otherwise go to landfill. The material is used to manufacture brand new windows, for closed-loop material sustainability.

Reusable and recyclable for hundreds of years

The official product life for a PVC-U window or door is up to 35 years (BRE) and they can be recycled up to 10 times meaning 350 years of re-use with minimal impact on the environment.

Our windows and doors represent a genuine sustainable option. Not only because they help reduce CO₂ emissions, but also because PVC-U is a fully recyclable material. Each year, tens of thousands of tonnes of PVC-U are recycled, minimising impact on landfill waste sites.

made with recycled content

Coloured content shown for illustrative purposes.

Sustainability awards won by our PVC-U profiles partner Eurocell

Classic appearance

with everlasting strength

Your front door needs to look its best in the thick of everyday action. That's why every single one of our expanded range is designed to stand up to the hardest knocks, the toughest treatment and the harshest weather.

A strong 4mm glass reinforced plastic (GRP) outer skin with a rigid foam in-fill panel means that your door is virtually draught-free, giving you higher levels of comfort and energy efficiency. In fact, the heat insulation factor of our doors is up to six times higher than a traditional timber door. The Dales Collection has a realistic woodgrain finish in a wide range of distinctive colours with a good choice of handles, letterboxes and door knockers for you to create your

own style. In addition, the latest 5-hook locking system makes it much harder for intruders to break in, helping keep your home secure. What's more, our doors have been approved by the Association of Chief Police Officers through the Secured by Design scheme*.

It's not often that such a high quality product requires so little maintenance. Yet these stunning doors need only occasional cleaning to keep their eye-catching good looks. With The Dales Collection, you can be sure that no matter what your door goes through, its beauty will never fade.

*Subject to specification. See page 8 or installation guide.

◀ **The Elton in Moondust Grey** with Simplicity Zinc glazing option & Chrome Handle

▲
The Bradbourne
with Lattice glazing
option and with
chrome handle
& letterbox

Energy efficient and sustainable too!

What's more, our door frames feature thermal inserts made from 100% recycled PVC-U for enhanced sustainability and thermal efficiency.

Strength, security

The new Dales Collection combines strength, security and style in a door that requires virtually no maintenance*. How do we do it? It's the composite construction of the door which combines different materials for extra strength, to keep your home warm and secure all year round.

On the outside, a robust glass reinforced 4mm plastic (GRP) skin with a realistic woodgrain finish provides the tough face that your door presents to the world. This exterior skin is much less prone to scratching and denting than steel-faced doors, and will never need painting or varnishing unlike a timber door.

So whether you're wheeling in a pram, carrying in a sofa or rushing in from work, your door will resist the wear and tear of everyday life. GRP is also totally weatherproof, so rain, snow or hailstones will have no effect on your door's outstanding, all-year-round performance.

* See the Eurocell Care and Maintenance Guide (ask your installer for more details).

and style

with low-maintenance performance

Keep intruders at bay

The door to your home has an important job to do, protecting you, your family and your possessions from intruders and damage. It's one thing to look good on the outside, but when push comes to shove, can your door withstand the pressure? With The Dales Collection, you don't have to worry. All lever doors feature the very latest locking technology including a 5 hook option which gives your home complete security, long handle or finger pull doors feature a 2 hook lock with a centre dead bolt. We use the latest anti-bump and anti-snap cylinder lock with cylinder guard to make your door far more secure than most other doors available today. If someone tries to break in, PVC-U edge banding to both sides of the door helps protect against damage. Plus, for even greater peace of mind, all of our doors and locks have been through rigorous tests and simulated break-in attempts.

Fully accredited

The Dales Collection of composite doors have earned the approval of the Association of Chief Police Officers' Secured by Design scheme and the police preferred specifications, and PAS24 in 2016*. Giving you the confidence that your new door and your home are as safe as houses.

* Successfully tested to. Upgrade required upon ordering.

Individual style

with maximum security

Something to turn your head

You have a choice of Gold, Chrome or Satin Silver which are made from Stainless Steel, Black Cast Iron effect, Satin Black and White (which are powder coated) handles, letterboxes and door knockers. So not only do they match perfectly, but you enjoy long lasting durability and trouble free performance. Doors can also be fitted with a spyhole built into the knocker if required, so you have the peace of mind of seeing who your visitors are before opening your door.

Our high quality stainless steel handles are available as conventional lever handles or as lever split handles – all covered by our comprehensive 25-year hardware guarantee. House numbers are also available in either polished Chrome, Gold, Satin Silver, White and Satin Black so visitors and the delivery drivers can find the right house!

A perfect match

All Dales Collection doors feature a weather bar as standard. Choose from Chrome, Gold, Frost White, Berry Red, Derwent Blue, Gothic Black and Heritage green.

* Gold, Chrome and Satin Silver only

** Black Cast Iron Effect only available for letterboxes and handles.

NUMERALS

DOOR KNOCKERS & SLIMLINE KNOCKERS

PVC-U THRESHOLDS

STANDARD

LOW

ALUMINIUM THRESHOLDS

LOW & PART M

Low-threshold for easier access

The Dales Collection of composite doors has been designed with a low threshold option, available in Chrome or Gold, to complement the rest of your door furniture. This removes the raised threshold along the bottom of the door, giving you easier access to your home. In addition, the foot of the door frame is end-milled to the threshold, for strength and a superior finish. We can also offer thresholds to meet Part M of the Building Regulations which are perfect for people with pushchairs and for wheelchair users. When used with appropriate width door.

Through the looking glass

with everlasting strength

Beauty that shines through

You can choose from bold half-glazing, through to contemporary arches and traditional glazing infused with decorative picture art. From traditional designs to abstract geometric shapes and colourful glass options, we're sure to have a design for you. Our wide range of glazing options enables you to add the finishing touch to your door and complement your home. All of our glass designs are made using the highest quality materials, so glass colours will remain bright and vibrant for years to come. Manufactured using traditional techniques and finished by hand, our glass options offer the best possible finish.

Triple-glazed units

We offer an extensive range of triple-glazed glass in many stunning designs including some Gold and Silver lead options. Constructed using hand-cut bevels and textured glass pieces, triple-glazed units are beautiful additions to any door design. What's more, they offer excellent thermal and sound insulation properties, as well as providing extra security thanks to the additional strength.

Creating privacy

Many of our glass designs can be specified with different backing glasses as well as clear, offering varying levels of obscurity. Choosing the right backing glass can help increase the level of privacy your door offers, as well as match glass elsewhere in your property.

Raise your standards discover more choice

We've gone to great lengths to ensure that every aspect of your door is manufactured and presented to the highest standards. We understand the importance of a stylish entrance and appreciate the difference it can make to a home.

Every detail of your door has to look superb and perform impeccably. So when you choose your door from The Dales Collection, you can rest assured that every component, detail and finish is designed to last.

Now, a wider choice of 16 different styles enables you to create a door that is personal to you and your home. From classic to contemporary, understated to bold, our large range gives you the freedom to choose a style that is just right for you.

In fact, the right door transforms a house and provides the finishing touch to your home. So use your door to reflect the style you want, and then every time you open it you'll feel proud that you created an exceptional door for your home.

Q is for quality

in every single detail of your door

Designed as a complete solution that includes the door, frame and fan light where applicable, you can be confident of built-in quality throughout. A dedicated transom bar means the door frame can be made in one piece, making your door strong and secure with impeccable good looks.

The exceptional workmanship that goes into The Dales Collection during our painstaking manufacturing process means there will be no problems after installation, leaving you free to enjoy your door and your home.

Document Q compliant

Dales Collection doors have Winmark certification and conform to the new approved Document Q regulation. As Document Q means higher security, you can be content in the knowledge that each element of your door has been built to safer and more secure high quality standards*.

*Excludes doors with toplights, thumbturn lock, unglazed and triple glazed doors

Peace of mind

Included as standard

10-year guarantee

A full ten-year guarantee gives you real peace of mind, particularly when it covers hardware and the surface finish, which will retain its original looks for up to 25 years. This highlights the depth of quality we build into our product specification – you won't find a more comprehensive guarantee.
